ABOUT ME

Energized by learning and thinking critically, I am a problem solver looking for a full stack development role.

Proudly responsible for the creation of new features in the Dexibit platform, including Derived Metric Assist and Tags.

Experienced in building strong relationships and trust with clients.

CALLIE GRIFFIN

FULL STACK ENGINEER

WORK EXPERIENCE

Full Stack Engineer | Dexibit

September 2023 – Present

- Contribute to all aspects of the Dexibit software using Typescript, React, Java, Kotlin, and Python.
- Develop new features such as Derived Metric Assist using Python, Typescript, React, and OpenAI.

Full Stack Engineer | Spoke Phone

December 2021 – March 2023

- Support all aspects of the Spoke Phone software using NodeJS, React, and serverless AWS. This includes frontend, backend, Android/iOS apps, desktop apps, internal API, and external APIs.
- Fix bugs within the platform, mobile apps (iOS and Android), and desktop apps (MacOS and Windows).
- Develop new features such as Directory Sync using Typescript, AWS Lambda, GraphQL, and Amazon DynamoDB.

Software Development Engineer I | CIN7

April 2021 – December 2021

- Develop and maintain internal and external API connections with various accounting software, eCommerce platforms, and Marketplaces such as Xero, QBO, Shopify, Amazon, Magento, etc.
- Work as the customer advocate in SCRUM meetings with Product and Engineering.
- Fix bugs within the accounting, eCommerce, and marketplace integrations.
- Develop new features such as Xero Branding Theme ID using .NET Framework, C#, SQL, HTML, CSS, and Javascript.
